

## 25W solar light battery

Solar energy is the environment friendly and pollution free, renewable source of energy. Usually mounted at a high elevation, solar street lighting products are powered by durable solar batteries, along with high power LEDs for bright light distribution, and are equipped with sensors for energy efficiency and control.

?Higher conversion efficiency?25W solar panels are made of high-efficiency polycrystalline cells which have an effective conversion rate of up to 19.1%, providing up to 25W power to ensure excellent performance in low-light environments. Ideal solar power panel for lighting, battery maintain and unexpected power outages.
