

Concealed Uninterruptible Power Supply

Include all of the devices the UPS will need to support. If a piece of equipment has a redundant power supply, only count the wattage of ONE power supply. If you are unsure how many watts your equipment requires, consult the manufacturer or power supply specifications in the user manual. Here is an example of an equipment list to verify the load:

??UPS(Uninterruptible Power Supply)???????? ?UPS()????????????????????,??,??,????????????????,???
