

# Photovoltaic glass shipment ranking

Which solar company has the most GW shipments in 2024?

JinkoSolar: Retained the top position with 19.993 GW shipments, showcasing a 53% YoY growth. JinkoSolar aims to achieve 100-110 GW shipments in 2024, with n-type modules constituting nearly 90% of the total. JA Solar: Rose to the second spot with its integrated supply chain, global presence, and technological innovations.

Who makes the most photovoltaic modules in the world?

Infolink Consulting has released the global photovoltaic module supply ranking for the first half of 2024. In a survey of manufacturers, changes were detected in the major global leaders. Jinko Solar ranks first, followed by JA Solar and Trina Solar. Longi ranks fourth, followed by Tongwei, Astronergy and Canadian Solar.

How many PV modules are shipped in 2022?

In 2022, the top 10 Chinese manufacturers have shipped over 240 GW modules globally, up 60% and occupying over 90% of global demand, according... LONGi reclaims top spot in shipment ranking for Q1-Q3 2022 Explore the top PV module suppliers based on shipment volume from 2022 onwards.

Who are the top 10 PV module suppliers in 2024?

The Top 10 PV module suppliers (ranked by shipment of own-branded product) in 2024 were all Chinese companies, for the second year in a row. It now seems a long time since the likes of First Solar or Hanwha featured in the Top 10 shipment rankings. To get a look-in these days, annual shipment volumes need to be in the range of 25GW and above.

Who makes the most solar panels in 2022?

InfoLink estimated that the top 10 manufacturers shipped around 252 GW of modules, an 166% year-on-year increase. The top four dominated 60-65% of global shipment volume, heightening that the big stays big. The top five module makers in 2022 were Longi, Jinko Solar, Trina Solar, JA Solar, and Canadian Solar.

Which solar brands have a strong market share in 2023?

The Top 4 and Top 5-9 lists remained relatively stable in 2023, with established and emerging brands holding their ground. JinkoSolar, Trina Solar, LONGi, and JA Solar collectively shipped over 270 GW, claiming a 52% market share. The Top 9 brands, in total, surpassed 400 GW in shipments, securing a robust market share exceeding 75%.

Explore the top PV module suppliers based on shipment volume from 2022 onwards. Discover the leading players shaping the solar industry landscape.

The top 10 PV module manufacturers shipped a total of 226 GW, with the leading four companies contributing to 63% of this volume, highlighting a growing oligopoly in the solar ...
