

Purchase Solar Power System

Why should you buy a solar system?

Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun.

Where can I buy solar equipment?

Like wholesale resellers, Amazon is another way to purchase solar equipment directly. Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.).

Should you buy or lease a solar system?

Consumers have different financial options to select from when deciding to go solar. In general, a purchased solar system can be installed at a lower total cost than a system installed using a solar loan, lease, or power purchase agreement (PPA). If you prefer to buy your solar energy system, solar loans can lower the up-front costs of the system.

Where can I buy a solar panel kit?

Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.). Most solar panel kits are best suited for smaller applications, such as an RV or boat instead of a home.

How do I buy solar panels?

How you choose to buy solar panels depends on your financial situation and your savings goals. Paying cash is the simplest way to buy solar panels and offers the greatest return on investment. Cash purchases are typically made in 3-4 installments. For example:

Can you buy solar panels yourself?

While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons to buy them through an installer. Design a custom solar system and compare quotes online. The best way into buying solar panels is buying a house that already has solar panels installed.
