

Sucre 10 billion energy storage project

How much does project Sucre cost in Shreveport?

This project, known as "Project Sucre," will be situated on 2,250 acres of agricultural land, approximately 125 miles east of Shreveport. The data center campus represents a substantial investment, with capital expenditures estimated between \$5 billion and \$10 billion.

What is project Sucre?

The group said the application was "for the proposed Project Sucre to clear, grade, excavate, and place fill for the development of a corporate data center campus on over 2,250 agricultural acres located off Hwy 183 and Thomas Rd near Holly Ridge, Richland Parish."

Will Entergy build a data center in Louisiana?

POWER A filing with the Louisiana Public Service Commission shows that Entergy plans to build more than 2 GW of natural gas-fired power generation in the state, including a 1,500-MW facility in northeast Louisiana that would provide power for a large Meta data center operation in an area off Interstate 20 in Holly Ridge (Figure 1).

Will Entergy invest in a new technology campus?

Expansive technology campus will occupy 4 million square feet on the 2,250-acre former Franklin Farm mega site. This project is expected to be the largest private capital investment announcement in the state's history. Entergy worked with Meta to address energy needs, and Meta will match its electricity use with 100% clean and renewable energy.

How much energy will a data center use in 2026?

The International Energy Agency earlier this year said that global data center energy use could more than double from 2022 levels of about 460 TWh to as much as 1,000 TWh in 2026. 1. This land near Interstate 20 in Holly Ridge, Louisiana, would be the site of a data center complex for Meta, the parent of Facebook.

Will Entergy build a new gas plant near a data center?

To support the energy needs of this massive facility, Entergy, the local energy provider, has filed an application to build 2.23 GW of natural gas capacity. This includes a new gas plant planned to be constructed adjacent to the data center site.

Polish utility PGE Group is planning to add more than 80 energy storage facilities through to 2035 to the tune of PLN 18 billion (\$4.7 billion). One of these will be the 981 MWh Zarnowiec battery energy storage project, which will be supplied with locally produced LG Energy Solution's grid-scale systems.

Adelaide, Australia - Amp Energy ("Amp"), a global energy transition platform backed by the Carlyle Group, announced today the commencement of construction of its Bungama Battery Energy Storage System ("BESS")
