We supply containerized generator sets with output rating from 0.18 MW to 2.0 MW. They are widely applied to factory & mining, power plants, onshore oil fields and offshore oil rigs.

Containerised generators offer increased levels of weather protection for the generator unit in harsh environments. For example they're ideal for exposed locations, marine environment, oil and gas applications. As they're enclosed in a secure container that is usually a clean environment they often require less maintenance.
