Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

Did UBS acquire Black Mountain Energy Storage?

UBS Asset Management today announced the acquisition of five standalone, development-stage energy storage projects in Texas from Black Mountain Energy Storage. Read more... Cypress Creek Renewables has added 400MW/600MWh to its storage portfolio after acquiring four Texas standalone energy storage projects from Black Mountain Energy Storage.

Can Black Mountain capitalize on the growing need for battery energy storage?

Agile, visionary, and well-funded, Black Mountain is well poised to capitalize on the growing need for battery energy storage.

Does Cypress Creek Renewables have energy storage projects?

Cypress Creek Renewables has added 400MW/600MWh to its storage portfolio after acquiring four Texas standalone energy storage projects from Black Mountain Energy Storage. Read more...

What makes Black Mountain a great partner?

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, affirming our commitment to developing resilient renewable energy resources throughout Texas.

Will a 200mwh battery energy storage system be online in 2024?

A 200MWh battery energy storage system (BESS) from developer Available Power at a net-zero technology campus in Texas is expected to be online in mid-2024. Read more... Energy companies are snapping up storage assets in the 'Lone Star State'. The state's lack of secure energy supply is driving the innovation. Read more...

Black Mountain Energy Storage (BMES) was founded in 2021 but has become one of the most active BESS developers in Texas, where the grid operator is the Electric Reliability Council of Texas (ERCOT). The ERCOT ...

Black Mountain Energy Storage General Information Description. Provider of energy storage services intended to offer project development services guided by an analytical approach, to deliver value at the grid and project level.

# Black Mountain EK New Energy Storage

Jackson Hughes, Black Mountain Energy Storage's Manager of Development, responded that utility-scale batteries are typically used when demand and prices for energy are high, after storing energy while demand and prices are low - which can reduce grid strain on typical days, but not necessarily serving as a fix for extended outages.

A relatively new company, Black Mountain Energy Storage has become known in the industry for selling on in-development projects to major names, including a 700MW portfolio sold to banking group UBS in August ...

An unusual energy facility is proposed for an undeveloped site near N. 84th Street and W. Mill Road. Black Mountain Energy Storage intends to build a \$450 million battery energy storage system to ...

Portland, Oregon-based GridStor has acquired a battery storage project in Eastern Oklahoma from Black Mountain Energy Storage, according to a Jan. 16 press release. Financial details of the transaction were not disclosed. The acquisition comes amid the regional electric grid Southwest Power Pool indicating an "urgent need" for new power resources to go online by ...
