Power Providers can provide a full service package including the solar array,the pumping equipment,drilling and irrigation. If you are ready to request a quote,just click here. Solar Water Pumping Systems: Lorentz,SunPumps,Future Pump

What is a solar water pump system?

As such,solar pump systems are rapidly developing to replace old-fashioned,labor or fuel intensive pump systems. Power Providers installs solar water pumping systems that takes care of the entire pumping process: from pumping water out of the ground to point of end use (drinking,domestic or irrigation).

How much does a solar water pump cost?

A basic,but complete solar water pump kit,will cost around \$2,000. This baseline system will pump water from a few hundred feet deep at a few gallons power minute flow rate. Often solar pumps systems will replace the high costs of electric pumps and generators,high maintenance costs of windmills,and the inconveniences of hauling water.

How much does a DC solar pump cost in India?

This change depends on the pump type,its power,and what it can do. DC solar pumps use solar panels directly and don't need an extra inverter. They are cost-efficient and seen in many uses. In India,the DC solar pump price list starts from INR30,000 to INR1,00,000. This depends on the pump's size and features.

Are solar pump systems the future of water pumping in East Africa?

In East Africa in general,and Tanzania in particular,providing energy to (especially rural) areas for water pumping purposes can be logistically difficult and expensive. As such,solar pump systems are rapidly developingto replace old-fashioned,labor or fuel intensive pump systems.

How much does a solar deep well pump cost in India?

In India,the DC solar pump price list starts from INR30,000 to INR1,00,000. This depends on the pump's size and features. AC solar pumps need a solar inverter to convert power. This makes them a bit more costly. The AC solar deep well pump prices list varies between INR50,000 to INR2,00,000. The price changes with the model and its abilities.
