

What is a fire proof storage container?

Our fire proof storage containers are fully tested and certified as REI 120 in accordance with the current European standard EN 13501-2 and allow you to store flammable substances close to buildings or directly on the production floor.

What is a Firechief®; Lith-ex fire resistant container?

The Firechief®; Lith-ex Fire Resistant Container (FRC) is an innovative product that protects potentially flammable goods against the threat of fire. The exceptional insulation properties are achieved by the use of a unique combination of technical textiles which prevent the propagation of both internal and external fires.

What happens if a DENIOS fire resistant container is not certified?

In the event of a fire, the system must maintain its basic parameters: If the fire resistance of the system as a whole is not certified, it is considered to be level 0 (zero), even if the individual components (e.g. walls, roof are separately certified). DENIOS fire resistant containers are always tested as a whole.

Are Efectis fireproof containers certified?

For more than 40 years, the accredited Efectis laboratory has been a recognised body for the testing and certification of fireproof products. The official, certified REI 120 report classifies our fireproof containers to also be approved in other countries where the same regulations apply.

Do DENIOS fireproof containers pass Efectis fire tests?

DENIOS fireproof containers have passed Efectis fire tests in accordance with EN 13501-2. For more than 40 years, the accredited Efectis laboratory has been a recognised body for the testing and certification of fireproof products.

Why should you invest in a fireproof storage facility?

Investing in a fire proof storage facility means that hazardous substances can be stored close to production in the most convenient way. In the event of a fire, fireproof containers protect your raw materials for at least 120 minutes, giving the fire brigade time to respond.

To safeguard your possessions from the ravages of fire, one should consider investing in a fireproof box for storage, a fire-resistant storage container, a fireproof storage container, a fire-resistant storage cabinet, or a fireproof storage cabinet. A fireproof box for storage is compact and portable, offering a secure and reliable solution ...
