Which are the best solar contractors in Hawaii?

Independent Energy is one of the best solar contractors in Hawaii, providing outstanding customer service and overall excellent value. Another local Hawaiian company, it offers reasonable pricing.

Does independent energy Hawaii have a warranty?

Independent Energy Hawaii does not offer a workmanship or energy production warranty. They specialize in the installation of solar panels and solar batteries. However, they can handle off-grid solar projects.

Is RevoluSun a good solar company in Hawaii?

RevoluSun Hawaii is considered to be a little more expensive than the average solar company in Hawaii. However, they offer a 25-year warranty for all equipment and a 20-year labor warranty. (Note: The industry average for labor warranties is 25 years).

Are solar panels a good investment in Hawaii?

Solar panels can be a good investment in Hawaii due to the high cost of energy in the state. The solar industry is booming here, and the choice of brand can affect your upfront costs, long-term savings, and ability to offset electric bills. Keep in mind that the solar industry in Hawaii is thriving.

Can solar panels be installed in Hawaii?

Yes, solar panels can be installed in Hawaii. Most areas in Hawaii receive below the national average amount of rain, but a warranty covering the roof penetration is still recommended. All solar companies can install solar panels in Hawaii, but not all of them offer batteries as an option.

Is Island Pacific Energy a good solar company?

Island Pacific Energy is a leader in the local solar industry in Hawaii with over a decade of local experience and consistently high customer reviews. It provides outstanding value for the money.

Ksolare, established in 2012, is India's most preferred and experienced Solar Grid-Tie Inverter & EV Charger manufacturer, located in Technology Park, Pune (Maharashtra, India). We have installed over 1.6 GW of Solar Inverter in PAN India with 99.99% customer satisfaction.

Solar inverters from Solis are now officially listed on the Hawaiian Electric (HECO) Qualified Equipment List -- specifically Solis residential high-voltage hybrid inverters (3.8-11.4 ...
