What is a hi-tech inverter?

Introduction : Inverters are used to provide AC supply by inverting the DC to AC whenever the AC supply fails. This becomes very essential to operate any equipment which can only be operated in AC. After studying numerous site requirements Alan Electronic Systems Pvt. Ltd. has introduced a Hi-tech Inverters which are power efficient.

What is inverter protection?

Inverter is protected from surge voltage and spikes and excessive Input Voltage which exceeds the specified tolerance. SHORT CIRCUIT PROTECTION. During Inverter mode the equipment is protected from short circuit when short circuit is removed output will come back to normal value automatically without manual reset. OVER LOAD PROTECTION.
