

Portable distribution box high power supply

What is a temporary power distribution box?

These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings. Lex Products offers a full range of portable power distribution units including boxes, boards and panels, specifically engineered for indoor and outdoor use.

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master (TM) Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.

Are Lex power distribution boxes safe?

Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe.

What is a high-voltage power distribution box?

In the context of new energy electric vehicles, the high-voltage power distribution box is a power distribution device for the high-voltage power of the entire vehicle, similar to the electrical fuse box in the low-voltage circuit system. It is composed of many high-voltage relays and high-voltage fuses.

What is a power distribution box?

The power distribution box allows different configurations of the battery packs to be connected in series or parallel. The PDU also contains a master BMS unit (MMU) which communicates with the Pack BMS units. If you have any questions, we will be happy to advise you and help you from the idea to the finished battery.

What is a portable power distribution system?

Power distribution systems for the use in environments with high humidity and formation of condensed water. SRS Portable Power devices are internationally recognized as reliable, of good value and solid construction. SRS manufactures a range of Portable power distribution systems.
