The USB-C port of the Baseus portable charger supports input and output. (18W input & 20W output) It means that Android users only need to bring a USB-C to USB-C cable, no additional micro cable is required. For iPhone users, you can charge your iPhone with a USB-C to lightning cable. Click the orange power button to check the remaining power.

How long does it take to charge a power bank?

You can fully charge it in as fast as 2 hours and 48 minutes when you use the 18W charger to charge the battery to save your precious time. ??Ultra-thin and Portable? Slim and compact design makes it the perfect portable power bank for travels, and easily fits into bags or backpacks, so you can stay powered for the journey.

Why do you need a portable charger?

Learn more. Portable devices have a Murphy's law-like ability to run out of power at the least convenient moment: as you step on the bus, right in the middle of an important meeting, or just as you get comfortable on the couch and press Play. This is why you need the best portable chargers handy, to make all those situations a thing of the past.

What is a portable power bank for iPhone?

With this portable power bank, you can keep your iPhone or other devices fully charged throughout the day! Super Fast Charging 22.5W with Built-in USB C Cable: This multifunctional power bank for iPhone features a built-in USB-C cable and supports both USB-C input and output at up to 22.5W for fast charging.
