

# Small and good mobile power box

Are portable power stations a good idea?

Portable power stations are a great way to take power with you when out and about-- like a power bank, only much bigger. Whether you're hiking, camping, or going on an RV vacation, there's a power station to suit your needs. Also: The best cheap portable power stations

What can a small portable power station power?

On the small end, portable power stations hold around 300 Wh (like the little Goal Zero Yeti 300, our Best Budget pick). These little ones are generally smaller than a lunch box and good for tasks like recharging laptops and speakers, LED lighting, and small fans.

Is BougeRV a good portable power station?

With its latest model, BougeRV has seriously jumped into the portable power station tech race. This means their products are worth considering when looking for a good portable power station.

What are the best portable power stations for camping?

A California based company founded in 2012, Jackery was one of the first portable power stations designed for camping. Each of their portable power stations has a built-in handle for easy carrying, and they introduced lightweight solar panels that pair perfectly for easy charging on the road.

What is the smallest portable power station?

"Oops" is our best guess. Oupes Mega 1 (1,024Wh): This is the smallest of the Oupes Mega series lineup, but that doesn't make it the least. For starters, it has a 95% measured usable capacity, notably higher than many other similarly-sized portable power stations.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

With portability in mind the PB-100 has been designed as a complete 12v dual battery solution. With the importance of payload in modern vehicles and the desire for customers to go further off the beaten track the PB-100 is the perfect platform for customers looking to power a 12v fridge, electronic devices and small 12v equipment.
