

Spherical outdoor rechargeable solar light

What is a solar sphere light?

These solar lights have been designed with a powerful integrated 3.7V 1200mAh rechargeable Li-ion battery. As it charges automatically in the sun, you'll never need to worry about it running out of power! The solar panel is located inside the Solar Sphere Light to maintain its sleek look.

Are solar lights rechargeable?

Yes, solar lights often use rechargeable batteries. Make sure you have the proper type of battery for your solar lights, as there are Lithium Ion rechargeable batteries available on the market that are specified for their particular device.

Can a remote control all solar spheres?

However, you can also wirelessly switch the lights on and off as well as control brightness. Better yet, a single remote can control all your solar spheres universally! Remote comes with 3-volt CR2025 button battery included. **WARNING - KEEP BUTTON BATTERIES OUT OF REACH OF CHILDREN.**

Can sphere lights stand alone?

Designed to stand alone or sit together in a pair, they suit any outdoor area. The lights are also fitted with an optional ground spike if you want to place the spheres on a grass area.

How does a solar sphere light work?

Once the light is switched on by holding the button on its base, the light will automatically come on at dusk and turn off at dawn. However, you can also wirelessly switch the lights on and off as well as control brightness. Better yet, a single remote can control all your solar spheres universally!

Are shape lights chargeable?

Shape lights are also USB chargeable which is perfect if you don't have a good solar charging location, or as a backup during dull weather spells. A full USB charge takes just a few hours and will provide 7 nights of illumination without any help from the sun.
