What is Solar Light? A solar lamp, solar light, or solar lantern has an LED light, solar panels, a battery, a charge controller, and maybe even an inverter. The lamp gets its power from a solar panel, which charges its ...

Although the sensors on the URPOWER Solar Lights have a great range, the actual range of light dispersed from the device is not very wide -- the illumination is concentrated to a smaller area than some floodlights. The URPOWER is not exactly easy on the eyes; it was obvious to us that the designers of this product valued functionality over ...
